Subj: SITE MANAGEMENT PLAN FOR NAVAL AIR STATION JOINT RESERVE BASE  
(NASJRB) WILLOW GROVE, PA

Dear Mr. Ostrauskas:

As requested, I am enclosing a rough draft version of the Navy’s Site Management Plan (SMP) for NASJRB Willow Grove for your information and use. This document was first prepared over a year ago in anticipation of discussions regarding the upcoming Federal Facility Agreement (FFA).

Sections 1 through 5 gives a brief description of all the Installation Restoration (IR) sites that have been identified to date. This list also includes those IR sites where the Navy has proposed “No Further Action” (NFA). Since no regulatory concurrence has been received regarding NFA recommendations, these sites have been included in the event that additional fieldwork is required to support a NFA decision.

Appendix A outlines the Navy’s Relative Risk Ranking process and Appendix B shows the actual risk ranking for the currently active IR sites (Sites 1, 2, 3, 5, 10 and 11). Appendix C shows a proposed schedule for remedial response activities for Sites 1, 2, 3 and 5 while Appendix D shows a similar schedule for Site 11.

Please note that an updated version of the enclosed document will be developed by the Navy upon completion of the Phase II RI effort in order to incorporate the most recent data into the risk ranking and site schedules for each site. In addition, any comments that your Agency may have will also be included in the next version.
If you require any additional information or would like to discuss this issue further, please give me a call at (610) 595-0567, extension 163.

Sincerely,

JAMES L. COLTER
Remedial Project Manager
By direction of the
Commanding Officer
